## EDUCATION

Indian Institute of Information Technology Bhopal  
B.Tech in Information Technology

November 2022 - Present  
CGPA: 9.47

## WORK EXPERIENCE

Digital Guruji - Node.js, Express, JavaScript, Flask, Zapier, AI4Chat.co  
Full Stack Intern

August 2024 - Present

- Collaborated with teams to develop AI-based workflows using **Express**, **Node.js** and tools like **Zapier** and **AI4Chat.co**.
- Built and optimized backend code for **automated workflows**, ensuring efficient execution and integration.
- Designed **APIs** and integrated third-party services to improve workflow functionality and performance.

CODAME, IIIT Bhopal - Next.js, JavaScript, TailwindCSS, Node.js, Express, MongoDB

Web developer

September 2023 - April 2024 (Full Time)

- Deployed the official website of the club with **intuitive interfaces** and **seamless navigation** for enhanced UX.
- Created a robust backend with **Node.js**, ensuring **seamless server operations** and achieving **94%** uptime.
- Enhanced engagement by implementing **lazy loading**, **caching**, & **advanced optimizations** boosting performance by **15%**.

## PROJECTS

File Sharing App - Next.js 14, TailwindCSS, Clerk Auth, Resend Email, Firebase

[Website](#)/[Github](#)

- Implemented password protection and secure **file storage** using **Clerk encryption**, allowing users to access and share files securely.
- Enabled robust authentication with **Clerk**, supporting **Google-Auth**, **Facebook**, and **GitHub** sign-ins, enhancing the security of login routes functionality by **40%**.
- Programmed **CRUD** functionalities include **registering users**, **viewing details of users and files**, **deleting user details**, **updating user details**, **uploading files**, **sharing files**, improving operational efficiency by **30%**.

Codame Website - Next.js, JavaScript, TailwindCSS, Node.js, Express, MongoDB

[Website](#)

- Developed an engaging club website with **optimal responsiveness** and **modern design**.
- Delivered a full-stack application, powered by a high-performance **RESTful API** built with **Node.js**, reducing data retrieval and processing time by **60%**.
- Optimized **HTTP-CRUD** operations with **Express**, boosting application response time by **30%**.

Promptopia - React.js, NodeJs, TailwindCSS, MongoDB, Express, OAuth, MERN

[Website](#)/[Github](#)

- Engineered a comprehensive prompt management system, allowing users to categorize and organize prompts using tags, improving content discoverability by **30%**.
- Crafted a robust backend with **Express** and **MongoDB** featuring routes for prompts and users.
- Integrated secure sign-in using **OAuth2** and **bcrypt v5**, enabling sign-ins through multiple platforms.
- Added **advanced search functionality** for quick prompt discovery using tags, reducing search time by **35%**.

## ACHIEVEMENTS

- Pupil** at Codeforces (**max rating – 1248**)
- 3-star** at Codechef (**max rating – 1678**)
- Leetcode rating 1794**
- Teaching Assistant** for Engineering Mathematics
